THOUSAND

Dollars in payments to vendors were approved to prevent natural gas or electric service disconnects for 137 households.

Words From Our Clients:

"I was not sure what programs were out there to help, I have not needed it before. The staff helped to explain everything to me well. He called as a follow up to my online request for help. We have an appointment for next week for me to sign up and get him the needed documents. He was friendly and a big help"
-Family Services Customer

Over the last few months, families exiting the FaDSS program averaged 10 contacts per month with their specialist and 60% of them exited with increased income! 80% of families participated in FaDSS beyond one year.

As one participant stated:

"It is nice to know we have an advocate if we need it. We are provided with many resources and a good listening ear. We feel genuinely cared for in this program. I like the one on one experience of it."

WELCOME TO NEICAC!

We have had several new members join our NEICAC team over the last quarter. We are so happy to have them here!

Head Start Staff

Megan Reagan
Gracie Hensley
Lisa Fleming
Martha Camarena Garcia
Lourdes Hernandez
Adella Ritter

Kari Harrington
Dorene Roberts

Meal Delivery Assistants

Keith Flowers
John Foels
Loren Eberling
Kirsten Olson

Family Services

Over 10,000 pounds of items were distributed from our pantries to 158 households in March.

Transit

497 unduplicated customers in the month of March. Of the trips provided that month, 2,826 transported customers to their place of work and 1,563 trips were supporting education needs of customers.

Weatherization

Ten homes were completed in March - consistent spring weather helps make the job easier!

Housing

Our Housing program is navigating grant opportunities & project planning for property maintenance and repair needs. Waitlists are open for Woolen Mill & Washington Court properties in Decorah and our Calmar Apartments.

Of the families exiting the FaDSS program last quarter, 100% of the members who experienced mental health concerns accessed treatment.
